## Local and General

Mrs. T. Amery and family arrived back in Crossfield on Thursday last, after an extended visit to Walla Walla, Washington.

Merrick Thomas paid a business trip to Calgary on Monday.

The number of sales in farm land in this district seems to be on the increase. A good number of changes are taking place.

### Hamsterley Farm.

U.F.A. Sunday has now become an established fact, on Sunday last the farming community of Crossfield and vicinity turned out to observe it. The service should have been held on the Fair ground but owing the heat it was thought advisable to adjourn to the Union Church. The chairman, Mr. G. G. Huser, introduced Mr. Buckley, of Gleichen, the speaker of the afternoon, who spoke of the Association from a point of view that would be new to a many. If his ideas were carried into effect this world would be a far happier place to dwell in. Let us hope his remarks may have some effect.

Earl McRory was present and was called upon to speak. He stayed over Monday to do business in connection with the local U.F.A.

Only a few more days left to get your entries in for the Fair. Don't forget to have them in for Monday, June 22nd. Make this year's Fair the best yet.

### CHURCH OF THE ASCENSION.

Rev. Wilfred C. Marsh, Incumbent.  
Sunday, June 22nd.  
10 a.m. Sunday School.  
11.0 a.m. Morning Prayer and Sermon.

A goodly number turned up at Cemetery on Thursday in response to the notice from the Village Council, and much good work was done. The Council would have liked to have seen more helpers from the village. The outside district was fairly well represented.

### Hamsterley Farm.

UNION CHURCH, CROSSFIELD  
Rev. R. K. Swenerton, B.A., B.D.  
Pastor.

Mr. A. Knox, Sunday School Superintendent.

Sunday School & Bible Class 2 p.m.

Preaching Service at 7.30 p.m.

The pastor will conduct the service and preach on Sunday. A Special Patriotic Service with printed programmes will be held on Sunday, June 26th, in commemoration of Dominion Day. The service will be resumed at Elba School on Sunday, June 26th, at 3 p.m. You and your friends will be heartily welcome at these services.

### Hamsterley Farm.

The Ladies of Union Church and the Anglican Church have decided to unite their efforts in serving meals and refreshments on the Fair grounds during the fair. Their efforts are meeting with the friendliest co-operation, and it is expected they will be able to serve tasty meals to the public and at the same time net satisfactory amounts for the benefit of the churches.

## The CROSSFIELD CASH STORE

## How About the Fair?

Do you need anything new in  
Men's and Boys' HATS, TIES,  
CAPS, SILK COLLARS,  
SOX SHOES.

TORONTO, CANADA  
WINNIPEG MONTREAL

## The Winnipeg Strike

The attention of all Canada is focused on the city of Winnipeg, which since May 15 has been in the throes of the greatest industrial strike ever known in the history of this Dominion. The strike had its origin ostensibly in the failure of the metal trades employers to recognize the metal trades council, representing the metal trades workers, and, in order to assist these workers in their fight for recognition, a general sympathetic strike of all workers in Winnipeg was called by the Winnipeg Trades and Labor Council.

The claim of the strike leaders is, therefore, that they are fighting for recognition of the right of labor to organize, to engage in collective bargaining, and for a living wage for all workers. But their actions belie their words.

The right of labor to organize in craft unions, to engage in collective bargaining as it has always been understood in the past through such unions, and to a living wage, is not denied nor challenged. On the contrary, it is frankly and openly admitted.

But certain revolutionary leaders who have succeeded in obtaining the upper hand in labor circles in Winnipeg now insist that collective bargaining shall be understood as meaning the right of all workers to organize in One Big Union and to compel all employers of labor to deal with that union rather than with the craft unions to which the men they employ belong. And in order to enforce this revolutionary change, and destroy all international labor unions as now constituted and managed, they ordered the "complete tie-up of the city of Winnipeg and attempted to deprive the people of all public utilities, and even the necessities to sustain life itself.

The establishment of the One Big Union, and all that its leaders declare it stands for, including the abolition of all production for profit, the nationalization of all industry, including all land, the release of all political prisoners, including active alien enemies, the establishment of a six-hour work day and a five-day week, can only be brought about by a complete revolution in our present system of responsible democratic government and the substitution therefor of the soviet system of government as they have it in Russia.

The sympathetic strike in Winnipeg, and the strikes called in sympathy with it in other western cities, is, in reality, the One Big Union in actual operation, and aims at the overturn of properly constituted governmental authority as we have it in this country. The declarations of the strike leaders make this very clear, and, after studying the situation, two members of the Federal Government, including the Minister of Labor, himself a union man, have become convinced of this fact. Furthermore, in the early days of the strike the strike leaders actually usurped the functions of the Dominion, provincial and municipal authorities, while their recognized chief, Rev. Wm. Ivant, declared that the government of Winnipeg "had been transferred from the City Hall to the Trades Hall."

It is a revolutionary movement, and, unfortunately, a large number of the organized labor unions have been led into it innocently and are being used by these men of Bolshevik ideals. The same leaders of labor are opposed to the One Big Union and the general strike in Winnipeg. They are doing all they can to combat these revolutionary movements, while citizens generally are alarmed and have organized to defeat the attempt to overturn the constitutional government in this country.

The time has arrived when the Federal Government must bestir itself to control these Red agitators and revolutionists, and if they cannot be controlled they should be deported. They represent a small but noisy and dangerous element in the country, and wherever they obtain control over a group of individuals or an organization there is bound to be trouble. In these days following the war, and the difficulties and burdens which that great struggle has imposed upon all nations and peoples, Canada included, it is all important that in working out needed reforms we should be constructive, not destructive, that we should follow the safe path of evolution, not revolution, and that all should recognize the fact that it is the first duty of every man and woman to devote their best thought and energies in the direction of the highest possible maximum of productive effort.

**Cheapest of All Oils.**—Considering the fine quality of Dr. Williams' Eclectic Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast, and all country merchants keep it for sale. So being easily procurable and extremely moderate in price, no one should be without a bottle of it.

**Use Eggs.**—A dozen eggs will cost about the same as a pound of breakfast. The food value of the eggs is more than one and a half times that of the beef, and the eggs can be made to serve considerably more persons than the pound of beef.

**Colds, Coughs and Influenza.**—LAXATIVE BROMO QUININE TABLETS remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 30c.

**Lovesick.**—Bob: You should see the graceful lines of her neck and her liquid eyes. Her breath is like new mown hay. Hess: Are you speaking of a girl or a cow?

**Poor Indeed!**—Woman: Are you too poor to go to a liquor cure? Medicant: Why, lady, I'm too poor to even get enough booze into me to need it.

Children Can Drink  
as many cupsful of  
**POSTUM.**  
as they like.  
There's no harm in  
Postum—no drugs  
to hurt them and no  
after-regrets.  
"There's a Reason"

## CURE COWS' CAKED BAGS

Douglas & Company, Nanapan, Ont.

**The Crowded Hour**  
The office manager scratched his head in bewilderment.  
"I can't figure it out," he mused.  
"All the men went the last two weeks of June for their vacations."—Judge.

## AFTER EFFECTS OF INFLUENZA

Often as Serious as the Disease Itself  
How to Get New Health

There are few homes in Canada that were not touched by the sorrow that trailed in the wake of the Spanish Influenza epidemic. Estimates of the loss of life caused by this epidemic show that it was almost as great as the losses caused by the war, and these take no account of the long and after-effects which are sometimes as fatal as the disease itself.

Victims of the disease are generally left with impoverished blood and a weakened system. In this condition they are exposed to many dangers unless precautions are taken to enrich the blood and strengthen the nerves. The debility that invariably follows influenza is not a disease of any organ. It is a general condition of unfitness. It must be met by a remedy whose good results will be quickly felt throughout the entire system. In this condition Dr. Williams' Pink Pills will be found invaluable. The mission of this medicine is to enrich the blood and this new, red blood carries renewed health and strength to every part of the body. The case of Mrs. George Louder, of Canada, proves the value of Dr. Williams' Pink Pills in cases of this kind. Mrs. Louder says: "I had a very severe attack of Spanish influenza, which left me pale and very weak. My appetite completely failed me, and the least noise would startle me and make me cry. I was under a doctor's care, and finally he advised me to take Dr. Williams' Pink Pills, and I had not been taking them long before I could tell they were helping me. I used altogether nine or ten boxes and am now feeling as well as ever I did in my life. I believe if it had not been for these pills I would have been a chronic invalid."

Such proof as this must be interesting to every one who suffered from an attack of influenza, and who still feels the trouble. It points the way to new health and strength, and if you are one who suffers you should avail yourself of this medicine at once. You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

**Wheat Crop in India Drops**  
Washington.—Official figures show a large falling-off in the prospective wheat crop of India. Only a little more than 70 per cent. of the average crop for the last five years is expected. The acreage also is 33 per cent. reduced.

**Keep Minard's Liniment in the house**

**No Security**  
The Clothing Salesman: Here's a nice feature, a change pocket provided with a button to prevent losses. Mr. Longuffer: Haven't you one with a combination lock? My wife knows how to unfasten a button.

**A SEPARATION GRANTED**

Not by process of law, but by the silent working of "Putnam's" corns separated from aching toes. Any corn or wart that "Putnam's" won't cure hasn't been discovered yet. Insist on Putnam's Corn Extractor, only 25c at all dealers.

A long face is a poor advertisement. Faint praise will not obstruct a flow of words.

Many a man's work is like an echo—merely a hollow mockery. Never call a man a fool—he may know enough to resent it.

But the man who thinks he knows it all hasn't scruple enough to know that he doesn't.

A married woman seldom goes on the lecture platform; she has an audience at home.

When a dog barks at the moon all night it is a sure sign of lunacy on the part of the dog—and others.

Although ridiculed as a craze, it is a scientific fact that sour milk conduces to longevity.

## Poles Are Blamed For Massacres

Washington, district of Columbia.—Information regarding numerous Jewish massacres in central and eastern Europe during last March and April, forwarded by special representatives of Jewish relief organizations, was presented to the State Department by Isaac Siegel, Congressman from New York. Names of 54 Jews who were massacred were given in the reports, which said many hundreds more about whom there was no definite information were killed.

Ask for Minard's and take no other.

**How Was He Cured?**

"I'm troubled with a buzzing noise in my ears all the time."  
"Have you any idea as to the cause?"  
"Yes, my wife wants an auto."—Louisville Courier-Journal.

**Reduced by Asthma.**—The constant strain of asthma brings the patient to a dreadful state of hopeless exhaustion. The patient is helped by all means made of the famous Dr. J. D. Kellogg's Asthma Remedy, which blesses him with no other acts quickly and surely on the air passages and brings more help and comfort. No house where there is asthma in the least degree should be without this great remedy.

**No Advantage**

"How did your husband's gardening come out?"  
"Not well so far," responded the serious woman. "The outdoor work gave him such an appetite that he ate the potatoes instead of planting them."

Miller's Eucalypti Powders, being in demand everywhere, can be got at any chemist's or drug shop, at a very small cost. They are a standard remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many mothers that rejoice that they found available so effective a remedy for the relief of their children.

**Villages Wiped Out by Forest Fires**  
Prince Albert, Sask.—Forest fires in the north have been raging for some days, and the villages of Delburn and Eldred, on the Big River line of the Canadian National railway, were destroyed. Strong winds fanned the flames into the most damaging bush fire of recent years.

Lots of them sympathize with the moon when it reaches its last quarter.

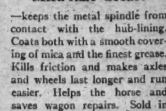

## Preserves Leather-Kills Axle Friction

**Imperial Eureka Harness Oil**  
—soaks into leather. Keeps water out. Prevents drying and cracking. Keeps harness strong, soft, pliable—lengthens its useful life and saves money. Comes in convenient sizes.

**Imperial Eureka Harness Oil**  
—simple and convenient. Should be in every barn.

**Imperial Mica Axle Grease**  
—keeps the metal spindle from contact with the hub-lining. Coats both with a smooth covering of mica and the finest grease. Kills friction and makes axles and wheels last longer and run easier. Helps the horse and saves wagon repairs. Sold in many sizes—1 lb. to barrels.

## Local and General

We are informed that those who have withdrawn from the Municipal Hail Insurance may be re included at any time before the 15th of September.

Forms for that purpose may be obtained from W. McRory, Sec.-Treasurer.

Many returned soldiers are buying up farms in the Crossfield district. Among those who have recently done so are Mr. Montgomery who secured the Hoedler place, Mr. Saville, who has the Van Arnold farm; both of these in the Rodney section of the country. Then Mr. Teyford and Mr. Ash have taken over the Grazeley farm south of town, and Mr. Franks is settled at Sampsonston. Others are coming also, and we welcome them trusting that they will meet with success in their efforts to get established.

Women's Institute.—A Special Meeting of the Institute will be held in the I.O.O.F. Hall, on Saturday, June 21st, at 8 p.m.

Crossfield and District Fair and Sports, Wednesday and Thursday next, June 25th and 26th.

Have your dinner, supper or light refreshments, including ice cream, on the grounds, served by the ladies of the Union & Ascension Churches who are jointly arranging to supply your needs. High-class meals will be served at popular prices.

Donations are requested from all interested.

Notice.—From this date on Gus. Retschlag will close the Blacksmith Shop at noon on Saturdays. Will customers please bring in their work early in the week, and so prevent disappointment to themselves.

Wanted, an English Riding Saddle, state particulars and price.  
Phone 305, Crossfield.

## Auto Races at the Calgary Exhibition

Sanction has been granted for the championship automobile races, to be held at the Calgary Exhibition, July 4 and 5, by the International Motor Contest Association, which governs and sanctions practically all of the United States. The I.M.C.A. has for the past three years sanctioned over 50 days of racing in Canada, and its record has not been blotted with a single fatal accident.

Manager E. L. Richardson has been in communication with the famous dirt track and speedway drivers, and from present indications it appears that the entry list for the Calgary races will contain the names of the most noted of the gas-hounds. Four thousand dollars is the amount of prize money for the two days' racing, with one-fourth of that sum going to the winner of the long-distance race.

Lost, in Crossfield a Purse, containing money and some papers. Will finder please return to the Chronicle Office.

## Stops Stomach Gas Prevents Fermentation Aids Digestion

If fermentation of food in the stomach can be prevented, you go a long way towards stopping the most frequent ailment of the day. Doctors who have studied the formula of Dr. Hamilton's Pills say it would be difficult to find a remedy better adapted to stomach ailments. After using Dr. Hamilton's Pills the stomach is cleared of the food fermenting matter that causes gas, heartburn, indigestion and headaches. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills come up the liver, kidneys and stomach.

It's really wonderful the improvement in appetite, in complexion, in general well-being that results directly from the use of Dr. Hamilton's Pills. They stop dizziness, fullness and swelling of the stomach, they correct constiveness, bad dreams and blotchy skin.

To strengthen the muscular system, to bring a keen edge to the appetite, elasticity to the skin and brightness to the eyes, nothing can compare with Dr. Hamilton's Pills. Sold everywhere in 25c boxes.

## Value of C.P.R. Land Grant

Misconceptions of the Value of Subsidies Given the C.P.R.

The Montreal Gazette, in discussing the value of the original land grant to the C.P.R., says in part:

In discussion of the railway problem in Canada the traditional misconception of the value of subsidies given the Canadian Pacific Railway persists. At the recent meeting of the Grand Trunk shareholders in London, the chairman, Mr. Smithers, more than once alluded to three subsidies as having a value of \$350,000,000 and the Toronto Globe, distorting facts and presenting half-truths, thus comments:

"Where did the Canadian Pacific get this princely heritage of land, greater in extent than some of the European kingdoms, for the possession of which the great war was fought? From the people of Canada, as a free gift, to enable the company, by providing cheap and adequate railway service to open up the West for settlement. And have the proceeds of this vast land grant been devoted to the intended purpose?"

"Let us look the situation squarely in the face. As a railway living on its own earnings the Canadian Pacific might be able to pay 15 per cent. a year upon the capital actually invested in it by its shareholders. As the most richly-endowed corporation on earth, by drawing upon its vast landed estate, it actually pays 10 per cent."

"Almost all of this vast landed estate came to the Canadian Pacific from the people of Canada without the payment of a dollar, either in acquiring title to the land, or during the long period in which the land lay ripening, acquiring value from the labors of the early settlers, who proved its worth."

The Canadian Pacific did not receive a single acre of land from the people of Canada as a free gift; to assert otherwise is a misnomer of words. The railway company acquired the lands as a matter of contract, and did not come into possession of the lands until the contract was fulfilled. The Government, representing the people, desired the construction of a transcontinental railway, partly in compliance with the terms upon which British Columbia entered confederation, partly for the settlement of the northwest, and partly to cement the union. The government, therefore, entered into a bargain with a syndicate of gentlemen of wealth, patriotism and enterprise, to construct a railway from Montreal to Vancouver, agreeing to pay them for the work in cash, in land and in two partially-belted sections of the line. Neither the money nor the land, nor the links which began nowhere and ended in the same place, was a free gift. It was payment for work to be performed, and had the work not been

performed no payment would have been made. It was no more a free gift than is the money a merchant pays a contractor for the erection of a warehouse. The Globe prates about the princely heritage of land possessed by the Canadian Pacific. Who gave it value? The government? No! Its value was created by the company, by large expenditure of money, by promoting settlement, by financing the contract. Before the steel was laid across the prairies the land was not worth ten cents an acre, because inaccessible for commercial purposes. Even in 1885, after the rails had been laid, the government did not place a higher price upon the land than \$1.50 per acre, which figure was deemed excessive by the Globe and its political friends.

One would infer from some of the criticisms that the whole Canadian Pacific system was promoted, paid for, and handed over to the company by the people of Canada; that the earnings of the company belong, at least in large measure, to the people and that the great prosperity of the enterprise should be ensured rather than commended. What is the fact? The price the government paid for the railway is insignificant when compared with the amount invested by debenture and shareholders. The railway was considered by investors so poor a proposition, even with its "princely heritage" of land, that the original share-issue of \$65,000,000 realized only 46 per cent. of face value, and at one time these shares were offered on the stock exchange at 33, with few buyers.

If today the lands of the company have large value, that value has been given them by the company. When the lands were handed over by the government for full value received, and much more than full value, indeed, they were practically worthless; and when these lands are appraised as a subvention or purchase payment, they should be appraised at their value in 1880, when the contract for the building of the railway was made, not at the value given them in 1919 by the enterprise, expenditure, and able management of the company.

## Heart Palpitated Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangement.

Mrs. Walter Greaves, Appleton, Ont., writes: "I had been run down, and I could not sleep nights, my heart was palpitated, and I could count every beat."

I used to have such dizzy spells I was liable to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to someone who is suffering the way I did.

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Bush Fires in Rainy Lake District

Between Virginia and International Falls Gangs Are Out

St. Paul, Minn.—Several bad fires were reported to State Forester W. T. Cox. Heavy rain is necessary to put out the flames, although all are reported "under control." Rangers report says fires are making "acute situations."

Several square miles of valuable timber were burned northeast of Mantrap Lake. More than 100 men of Virginia and Rainy Lake Lumber Co. are fighting the fire between Virginia and International Falls, and other fires are running between Vermilion and Rainy Lakes. The most serious are on Vermilion River.

Some people seem to know everything except the fact that they don't know how things they don't know.

## Judge Wants Power To Deport Aliens

Ontario Chief Justice Says Present Machinery Utterly Insufficient

Toronto. — In its presentation to Chief Justice Sir William McRae, the Grand Jury of the Assizes reported that the majority of cases it had been called on to deal with had been of a serious nature: murder, attempted murder, and manslaughter. "We have been impressed by the fact," the presentation reads, "that the foreign elements contributed largely to these serious cases, and this grand jury endorses any legislation to limit the influx of foreigners to this country. It is the opinion of this grand jury that any steps taken towards the deportation of these undesirable now within the country would be greatly in the interests of the country at large."

Sir William remarked that the machinery for deportation was utterly insufficient, and added that he did not see why there should be any statutory limitations. Every court, he thought, should have the right to try and deport aliens. Some aliens came to the country, remained quiet for a time, but eventually their early environment reasserted itself.

The cereal crops of the United States were worth over \$7,000,000,000 to the farmers who raised them in 1918.

## Never Troubled With Headache

This Relief From Suffering Fully Appreciated by the Writer of This Letter. Tells Others How Cure Was Effected

South Fork, Sask., June 9. — Mrs. Letts, of this place, has a happy experience to relate. She suffered terribly with headache, and the various medicines never seemed to help her. The trouble came from torpid, sluggish action of the liver, kidneys and bowels, and when this condition was overcome by the use of Dr. Chase's Kidney-Liver Pills, the headaches disappeared, and Mrs. Letts felt that her health was greatly benefited.

A. F. Letts, South Fork, Sask., writes: "I suffered from terrible headaches, so severe I thought sometimes I would go crazy from them. No remedy I ever tried helped me until I used Dr. Chase's Kidney-Liver Pills. Since using these I can say I am never troubled with headaches now, and feel much better generally."

This statement is endorsed by Mr. O. P. Cole, Postmaster at South Fork, Sask.

Mrs. F. L. Harris, Kealey P.O., Sask., writes: "I was suffering from liver trouble, had a heavy pain under one shoulder-blade all the time, and was nearly blacked out at times, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me, and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out of doors, and of course, heavy eating, and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a trial."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box at all dealers, or Edman, Bates & Co., Limited, Toronto, Refuse substitutes. The genuine bears the portrait and signature of A. W. Chase, M.D., on the label.

Wins 20,000 Francs

For being the first aviator to successfully land his plane on the roof of a building, J. Vedrines, noted French flier, was awarded a prize of 20,000 francs. Vedrines landed on the top of the Galerie Payette, Paris, an area about 45 x 80 feet. Additional credit for this remarkable achievement is given him because the spread of his planes was only a little less than the width of the roof.

## LILY WHITE Corn Syrup

For Preserving Thousands of the best housekeepers have discovered that using half sugar and half Lily White Corn Syrup makes preserving more uniformly successful.

To start with, the consistency is bound to be just right from the very nature of the syrup; there is no danger of the preserves crystallizing; the syrup brings out the natural flavour of the fruit; the keeping quality is excellent and the preserves do not have the cloying sweetness of all sugar.

For better preserves, use Lily White Corn Syrup.

Sold by Grocers everywhere in 2, 5, 10 and 20 pound tins.

The Canada Starch Company, Limited Montreal

# Minor Modifications Of Treaty Terms

New York.—The Associated Press has the following:

If Paris the Council of Four continues to discuss points brought out by the German counter-proposals to the German peace treaty, especially as concerns territorial questions and reparations.

Experts on both these questions have been called before the council for conferences, and the belief apparently prevails in modified quarters in Paris that some modifications may be expected in the original terms of the treaty, particularly as regards the Saar basin and Silesia.

Discussion of the protest of Germany that being left without merchant ships, she is rendered impotent to resume her trade, and thereby unable to aid in paying the indemnities asked, also has been taken up by the council.

The expectation is that the council will heed reports of the urgent necessity to render a quick decision on the matters in controversy owing to the situation in Germany.

One report has it that Herr Noske, the German minister of defence, has inspected the coast defences and ordered the garrisons to be ready for emergencies.

An appeal to the United States by magistrates of 200 German municipalities, representing virtually half the population of Germany, has been signed. It demands a "peace of justice," under President Wilson's 14 points, and protests against the continuation of the blockade against Germany.

Paris.—These are anxious days throughout peace conference circles, with both the German and Austrian treaties in the balance, and every effort is being made to secure early and united action. Many private conferences are going on, including one between A. J. Balfour, British Foreign Secretary, and Col. House, of the American delegation, all seeking to clarify the situation and determine the course of action.

The prevailing view of those taking part was hopeful of early and satisfactory results. They admitted that the conditions were difficult and the differences were rather sharply drawn, but insisted that there was nothing like an impasse or anything threatening an agreement. Indications were that certain general results are already beginning to take form. The German counter-proposals, as a whole, undoubtedly will be rejected, but a number of suggestions may be embodied in the allied treaty, not with any purpose of modifying or softening the document, but for the purpose of making it workable and achieving the supreme end of getting it signed and implemented.

Certain concrete results appear to be taking form, namely the fixing of reparations at a definite sum, around one hundred million marks, instead of giving the commission indefinite authority to assess beyond that sum, reducing the period of occupation of the western frontier from fifteen to twenty years.

Readjustment of the Silesia treaty at which Germany was greatly aroused, so that the population may secure self-determination, probably through a plebiscite. With respect to the League of Nations, the British and United States view at first inclined toward admitting Germany, on the ground that it would bind her to keep peace. But France would not consider any association with Germany. So it is understood that M. Wilson has gradually come to M. Clemenceau's view of keeping Germany outside the league.

Besides making the amount of the reparations definite, the time for the first payment may be extended. The allies have fixed two years; the German counter-proposal asks seven years. The experts suggest a compromise of four years.

The German complaint that they will be without merchant ships, it is suggested, will be met by the allies chartering a limited number of ships so that the resumption of trade will permit the payment of reparations.

## Value of Experience

If the average man could live his life over he would probably be a bigger fool than ever.

## G. W. V. Would Probe Labor Unrest

Suspicion That Workers Are Being Systematically Robbed By Profiteers

Toronto.—An immediate effort to reach the solution of the labor unrest manifest throughout the country is demanded by the provincial executive of the Great War Veterans' association, which has been in session here. The executive calls for "drastic steps to deal with the labor, food and clothing situation by the present cabinet."

The unanimous opinion of the executive was that their efforts to find employment for returned soldiers were fruitless because of the labor unrest. This unrest, the executive believes, is largely due "to suspicion that the workers are being systematically robbed by profiteers."

The executive calls for a solution of the high cost of living. It asks for representation upon any committee which is chosen for investigating the question.

## Petrograd Threatened

Enemies of Bolshevism Are Moving Against the City

Omuka.—A Bolshevist dispatch from Moscow, dated May 24, gives the text of a proclamation of the executive committee of the Bolshevik party as follows:

"The Petrograd front, until recently, was for us a matter of secondary importance. During the last days the situation has changed entirely. The enemies of Bolshevism have decided to take Petrograd, and the Finnish and Estonian White Guards, as well as troops of General Udenich, Col. Belokhovitch and Gen. Rodzianke are moving against the city."

"This unexpected attack has brought about great demoralization in our ranks. Every minute counts. All of us must rise to defend Petrograd."

An unconfirmed report has reached Copenhagen that Petrograd has been captured by Finnish and Estonian troops.

## Allies Stop General Strike

Germans Protest Against Rhinish Republic

Coblenz.—A general strike throughout the occupied area was declared by the Germans as a protest against the reported launching of the Rhinish republic at Wiesbaden. It was brief, however, being only four hours in duration, the workmen returned to their labors after being warned of the consequences by the allied military authorities. The principal strikes were railway employees and the street car workers at Treves and Coblenz.

When the news of the strike became known, word was sent the leaders that unless the Germans returned to work by 1 o'clock the leaders and all the other strikers would be deported into sections of Germany unoccupied by allied troops. The inter-allied railway commission reported that all the workers had returned to their jobs. Newspapers in Coblenz printed stories denying the birth of the German republic at Wiesbaden, and asserting that the report was an effort on the part of certain Germans to mislead the population of the Rhineland.

## German Chancellor's Declaration

Versailles.—A member of the German delegation with the rank of councillor of legation, who returned here recently from Berlin, made the following declaration concerning the peace treaty: "We will sign, despite all, because we will be hacked to pieces if we return to Berlin without signing."

## Air Squadron for Russia

London.—Col. Collishaw's all-Canadian air squadron for Russia includes Captains Kirkhead and Slater, of Calgary; H. J. McDonald, Victoria; Morton and McCreedy, Toronto; Brithall, of Ontario; Lindsay, Toronto; Grant, Peterboro; Asten, Manitoba; Sidbottom, Quebec; and Richmond and Fall, Vancouver.

## Murderous Italians

Two Austrians Killed at Hamilton, and Two Wounded

Hamilton, Ont.—Two Austrians were fatally shot and two others fatally wounded at the Tuckett farm, on the Beach road.

Eight Italians, who claimed they were liquor detectives, insisted on searching the house for liquor. They lined up the few Austrians who occupied the house, and at the point of revolvers went through their pockets. After securing \$1,800, they deliberately shot into the line of Austrians, who were unarmed and who did not resist. Four of them fell, two mortally wounded, and the Italians escaped.

## Amir's Treachery

Military Position of British in Afghanistan Is Satisfactory

London.—Reuter's is the latest that the position in Afghanistan from the military viewpoint is much improved. Probable developments from the Amir's latest move cannot be foreseen until more definite information with regard to Afghan attitude is available, but it may be pointed out that the Amir's letter to the viceroy, and his orders to his generals, both contain glaring inaccuracies.

The suggestion that the Afghans were obliged to take defensive measures on any British act is, of course, quite untrue. The fact is the Afghan troops crossed the border at a dozen places and were mobilizing against our frontier as rapidly as possible when they received no provocation whatever.

## Wish to Join Sweden

Stockholm.—The Landsting of the Aland Islands has sent to the Peace Conference a resolution demanding the restoration of the Aland Islands with Sweden. The resolution was adopted unanimously at a meeting of delegates at Mariehamn.

## Lithuania Wants Investigation

Venice.—The Lithuanian authorities have demanded that the Peace Conference appoint a commission to investigate alleged pogroms by Poles, in parts of Lithuania occupied by Polish forces.

## Less Than 80,000 Overseas

London.—There are less than 80,000 Canadians now awaiting repatriation. Over 54,000 sailed during the month of May. The last units of the fourth division sailed on the Olympic on Friday.

## CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 42 Windsor, Ont.

# Postal Employees Are Discharged

## Austria Is Apathetic

Willing to Accept Conditions as Laid Down and Thus Bring Peace

New York.—The Associated Press issues the following:

Like the German government, the Austrian government is said to be dissatisfied with the peace terms of the allied and associated powers, which are declared by one of the responsible newspapers of Vienna to be unacceptable.

Unlike the German populace at large, however, the Austrian people apparently are apathetic, having expected no easy terms, and are willing and even anxious to accept the conditions as laid down, and thus bring peace to the sorely stricken former empire, which is rendered by the treaty virtually an inland state of small territorial proportions.

## U.S. Bomb Terrorism

Effect of Outrages Is to Prepare New and Severe Penalties for Convicted Perpetrators

Washington.—Investigation of the bomb explosions at eight cities, which were intended to kill public men, has convinced secret service chiefs here that the outrages had a common source, and that they probably can be classed as an unsuccessful attempt on the part of a still-unknown anarchistic group to resume a reign of terrorism, begun with the May-Day attempt to deliver a series of infernal machines through the mails out of New York.

Washington police devoted their efforts to re-assembling fragments of the man who was killed at the door of Attorney-General Palmer's home, while attempting to plant his cargo of explosives. Mr. Palmer himself dismissed the incidents today as "utter failure to terrorize the country and stay the hand of the government," which purpose he ascribed to the authors of the outrages.

Government experts on explosives after surveying the site of the explosion here and the partially demolished dwelling, came to the conclusion that two separate bombs exploded, probably when the man carrying them tripped over a stone in the entrance. In both houses of congress members began the preparation of measures providing new and severe penalties for convicted perpetrators of such crimes.

## Order Arrest of New President

Berlin.—The German government has issued an order for the arrest of Dr. Doehring, president of the new Rhinish republic, the North German Gazette announces.

The government also, the newspaper states, has entered protests both at Paris and at Spa, the headquarters of the armistice commission, against the behavior of the French authorities in the occupied area of the Rhineland.

## Tribute Paid to Railway Employees

Honor Roll Unveiled at Montreal Carrying Names of Eighty-One C.P.R. Apprentices

Montreal.—As a tribute to the 81 C.P.R. apprentices who enlisted for overseas service during the war, an honor roll was unveiled at the Angus Club in the presence of Mr. Burns, works manager, Mr. Muir, assistant works manager, and a representative gathering of foremen and apprentices. Mr. C. Kyle, supervisor of apprentices, occupied the chair. Mr. Burns paid a fitting tribute to the boys who had paid the supreme sacrifice, and asked the apprentices to be worthy of the sacrifice made by their comrades while fighting to make this a better world for other people to live in. He commended the progress being made in school and shop, and referred especially to the good work done at the evening classes, and to the prize given by the Montreal council of arts and sciences. The C.P.R. itself gives five scholarships for proficiency in mathematics and mechanical drawing, while 380 apprentices get two hours instruction each week.

Ontario, Ont.—That the government is determined not to discharge post office employees who went out on a sympathetic strike in the West and declined to return to duty when requested to do so, seemed clear in two telegrams sent by Sir Robert Borden, one to R. Sincks, secretary of the central strike committee, Calgary, and the other to V. Hollingsworth, secretary of the Alberta Methodist conference.

The prime minister's telegrams were in reply to messages received by him. The message from Mr. Sincks to the premier conveys a long resolution passed by the Brotherhood of Dominion Express employees condemning the announcement by Postmaster-General Blundin, that postal employees on strike should be considered dismissed.

The telegram concluded: "The central strike committee must be passing the Dominion government, after having been appealed to, to settle present crisis in a manner satisfactory to labor, has answered the appeal by taking up an antagonizing retaliatory attitude. The people's government is once more asked to stand behind the people, not against them."

The telegram from the Alberta Methodist conference covered a resolution passed by that body, expressing the view that the action of the government "cannot but perpetuate rather than alleviate the social unrest, and to be subversive of the principles enunciated by the commission on labor legislation accepted by the peace conference, in the preparation of which Sir Robert Borden is said to have had a leading part."

The telegram called upon the government to repeat its action and expressed the opinion that employees of governments, municipal, provincial and federal, must be guaranteed the right of effective protest against wrong conditions.

Sir Robert Borden's reply to the secretary of the central strike committee was as follows:

"It is desirable that your attention should be called to facts which your committee has not taken into consideration. The government has always been prompt to give its consideration to the demands of all public servants. In doing so it has no purpose to serve other than the public interest. It can only act under the mandate of the people's representatives in parliament, and always as trust and guardian of the public interests. The postal employees were bound by obligation and by oath faithfully to serve the people of Canada. They are on duty in Winnipeg, in respect of any grievance of their own, but in alleged sympathy with employees of private companies. They were given three days within which to return to their duty, and they were distinctly informed that they must make a choice between directions received by them from the strike committee and the duty which they owe to the people of Canada. Some of them returned. Those who persevered in the strike took their course deliberately and with full notice of the consequences which would inevitably follow.

"In other western cities before any strike took place a most distinct and positive intimation was given to postal employees that abandonment of their public duty, obedience to the directions of another authority and participation in a sympathetic strike would mean their permanent retirement from the public service. The people of Canada cannot tolerate the proposal that under such circumstances civil servants shall be permitted to violate their engagements, to dislocate the public service, to occasion intense public inconvenience and suffering, and to put aside all respect for public duty. The government cannot renege men who have deserted their posts under such circumstances unless it is prepared to abandon all effective attempt to maintain the national services.

(Signed) "R. L. BORDEN."

After a casual glance over the peace terms, no German should have any doubt as to who won the battle of Jutland.—Toronto Telegram.

# Fox Farming On Prince Edward Island

A few years before the war, silver fox farming suddenly sprang into the list of Canadian industries, and from Atlantic to Pacific travellers in the observation cars of the C.P.R. used to have pointed out to them fences where thousands of dollars worth of animals were said to be penned up. Companies were formed to exploit the farms, and the speculation was about as great as that in the Calgary oil fields. Since the outbreak of war less has been heard of this boom, and yet in certain districts it still seems to flourish. Fox furs are still in demand and are worth a great deal of money.

At the beginning of the pelting season in 1917 the number of foxes on the ranches of Prince Edward Island was approximately 10,000. From December 31st, 1917, to January 31st, 1918, 2,500 foxes were killed and their skins sold. In 1918 there was a pup production of 3,500, thus making the number of foxes at the opening of the last pelting season 11,000. Allowing for a kill of 3,500 during the past season and the shipment of a small number abroad, the season of 1919 will open for ranch breeding with about 7,000 selected foxes as a breeding stock.

Good silver fox furs are of great value. They are worn by real queens and movie queens. When the daughter of the Duke of Devonshire was married not long ago a silver fox fur was one of the most prized gifts she received.

One of the best known fox ranches has a central passage through which is carried the feed to be distributed on either side and which is also used for carrying away the refuse from the pens. A guard fence nine feet high of boards with wire overhanging and wire extending into ground encloses the ranch proper. This gives privacy, protection and prevents the foxes escaping should they get out from the central pens. Outside of the guard fence is a twenty-foot watch tower used by the keeper to keep accurate records during the mating season and general supervision throughout the year without unnecessarily disturbing the foxes. Each pen is of a large enough size to give the animal plenty of exercise and passages are arranged so that the keeper can give any pair the full use of two large pens. The pens are divided by double partitions of wire, which prevent the animals from fighting and injuring themselves. As might happen if only a single partition were provided. The wire netting runs down into the ground about three or four feet or to the hard earth, which is known as hard-pan. The walls are nine or ten feet high and have overhangs of netting extending two feet on either side of perpendicular walls to prevent the foxes from getting out or other foxes getting in. The latest model fox house is a twin-house, one being the den and the other the living room with a chute connecting and another chute for entrance from outside to the living room. These houses are each about four feet long, two feet wide and 18 inches high, with hinged roof to enable cleaning and catching foxes.

American bought 253 island foxes in 1918. Japanese and Norwegians are entering the fox breeding industry. Japan took 34 island foxes last year and Norway took 24. Good prices were realized, averaging about \$750 each.

A good time to visit a fox ranch is in the spring, when the coats of the foxes are looking at their best. Fox pups are usually born in March or April, mature to full growth by the following November, and produce young in the succeeding spring.

## Plot to Aid Huns Charged

New York—Charges that organized attempts are being made to poison American public opinion in regard to Poland, under cover of a denials of Polish Jews, but in reality as a move to aid Germany, are made in cablegrams sent to President Wilson, General Plaisiuski and Premier Paderewski, by the Society of Polish Engineers and Merchants in America, made public here.

It's a poor gunboat that can't shoot the rapids.

## Reds Are Deserting

On Vaga and Divina Sectors of North Russia Advances Are Easily Made

Archangel—The Bolshevik troops on the Archangel front appear to be losing their morale rapidly. Desertions into the allied lines are of daily occurrence at present. On the Vaga and Divina sectors, Russian and British patrols find little difficulty in entering under the protection of gunboats.

The constant artillery duels between the land batteries and the submarines on the Divina have resulted in several villages being virtually wiped out, the first instances of this kind in North Russia.

The Bolsheviks have withdrawn a considerable number of their boats, but still have several large guns in action. These guns outraged the allied weapons, and although they have no effect on the allied positions, have caused casualties among the civilian population, which stubbornly refuse to leave the villages.

Bolshevik airplanes showed fight for the first time recently, when they came in contact with British and Russian planes over Seltso, on the Divina and Kitta, on the Vaga. The aerial fighting, however, was without decisive results.

## To Stamp Out Disease

Regulations to Defeat Outbreak of Hog Cholera Made by Government

Ottawa—The director-general has reported serious outbreaks of hog cholera from time to time, the origin of which has been traced to culled hogs from our public stockyards. The minister of agriculture has, in view of this information, passed an order, which becomes effective on June 14, controlling the movement of culled hogs.

After June 14 no hogs can be moved from certain public stockyards, except for immediate slaughter, unless a permit is first obtained from a veterinary inspector of the health of animals branch. One of these officers will be permanently stationed in each of the following stockyards, which come under the order: Calgary and Edmonton, Alberta; St. Boniface, Man.; Moose Jaw, Sask.; Toronto, Ont., and Montreal, Que.

## Huns Cause More Trouble

Trouble on Indian Frontier Is Probably Fomented by Propagandists

Simla.—Two hundred Afghan troops who broke out of Fort Baldak and fled, offered heavily armed machine guns and in the cavalry pursuit. Some German and Austrian officers who were at Kabul when hostilities broke out stayed there when the remaining Austro-German war prisoners were deported from India, and it is believed some of them are assisting in the direction of the Afghan operations with a certain amount of Bolshevik co-operation and assistance. It is reported that the Ghilzi tribe is not averse to the selection of a new Amir.

The heat is seasonable, but thanks to inoculation and other precautions the health of the troops is excellent.

## Bolshevik Regime Nearing End

Paris—Vienna dispatches received here through Basel, Switzerland, say the Bolshevik regime in Hungary is nearing an end. The New Vienna Tagblatt, says a cabinet, headed by Herr German, who was minister of commerce in the cabinet headed by Count Karolyi, has replaced the Soviet government, and that Herr German has been invited to Versailles to confer with the entire representative in regard to the Hungarian situation.

## R.N.W.M.P. Will Exceed 1,200 Men

Regina—According to information received by Commissioner Perry, the R.N.W.M.P. has been authorized to recruit to a strength greater than 1,200. No information could be obtained as to what the exact strength of the force would be, but it will be considerably increased from 1,200, the strength at first arranged by the authorities at Ottawa.

# Slovene Country Invald by Huns

Terrible Cruelties Exceed Atrocities Committed During War

New York, N.Y.—The Germans of Austria in their recent invasion of the Slovene sections of Carinthia practiced cruelties with the evident intention of exterminating the Jugo-Slav element there, is declared in reports transmitted to the east of the Jugo-Slavs at Belgrade and made public here by Dr. Vozylav M. Vozanovich, director of the official information bureau of the Serbs, Croats and Slovenes.

It is charged that under the pretext of a Jugo-Slav offensive planned against them, "the Germans have massed troops and have crossed the frontier line, invading the Slovene country and committing, before the very eyes of the Peace Conference, savage crimes and terrible cruelties, which exceed, if possible, even the atrocities committed in Serbia, Belgium, and northern France, during the war."

It is asserted that a detailed plan for the extermination of the Slovenes in Carinthia was drawn up by the Austrian Privy Councillor, who was chosen to represent the region of Carinthia as member of the Austrian Delegation at the peace conference in Paris. The statement concludes:

"The population of the unfortunate Carinthia sends a despairing appeal to public opinion in civilized countries, to their representatives at the peace conference, and especially to their brothers on the other side of the ocean, to 500,000 American Slovenes, being in hopes of their unflinching protest and aid to save the martyred children—women and men—of Slovene Carinthia, which is dying under the German yoke, but which wishes to live to be liberated and united with their brothers-in-race of the free and independent kingdom of the Serbs, Croats and Slovenes."

## Clearing Mine Fields

At Least Two Years Before Danger Is Removed

London—The Publicity department of the German admiralty states that it will take at least two years to clear the North Sea and the Baltic from minefields and drifting mines. It claims that the work is proceeding with all speed, 20 units being employed on the task with, in all, 334 vessels and 14,000 men. It is also stated that the most important trade routes have been cleared.

The Hamburg Nachrichten is entirely discredited. It says that accidents to steamers and fishing boats are of almost daily occurrence. With regard to the most important sea route—that from Heligoland to the South Dogger—the Hamburg-America line recently asked the German admiralty if it could be regarded as safe for the steamship Imperator, and was warned against it. The complaint is also made that the admiralty has refused to allow a private company formed for the purpose, to assist in the work, and can give no better reason than to say that the company, paying lower wages, would do the work more cheaply.

## Demand for Wool

Saskatchewan Expects to Ship More Fleeces This Season

Saskatoon, Sask.—W. W. Thompson, director of the co-operative organizations, Saskatchewan department of agriculture, expects fully 500 pounds of wool will be shipped this year to the co-operative branch for marketing. Mr. Thompson stated that contracts have already been sent in for 45,000 fleeces, an increase of fully 25 per cent. over the corresponding period of last year.

The department is emphasizing the importance of early shipments this year, and the warehouse in Regina will be opened June 1 instead of June 25 as in previous years. Early shipment should be made to avoid congestion, said Mr. Thompson, as many farmers have already sheared their flocks.

## Von Hindenburg Needs Rest

London—Field Marshal Von Hindenburg expects to go to Switzerland shortly, according to a Berlin dispatch given out by the wireless press. He intends to take a long rest in that country, the message states.

W. N. O. 1267

# The Canadian St. Andrew's

## German Dye Secrets

To Be Given Away

United States May Obtain Secrets of German Dyes

Washington.—Chemical manufacturing industries in the United States may obtain from the custodian of alien property in Washington many secrets of German dyes, chemicals, and allied products, it is announced by the Bureau of Foreign and Domestic Commerce of the United States Department of Commerce, in a report just issued.

These secrets were learned after the Custodian took over enemy property in this country. As before 1914 the United States imported more than 30 per cent. of its chemicals and dyes from Germany, the importance of this seizure is apparent. Before this country's entrance into the war, the processes of making these products were jealously guarded.

The bureau shows that nearly \$45,000,000 worth of manufactured chemicals were imported in 1914, not counting dyes, and it is to impress the nation with the magnitude of the domestic market for such products that the report is issued.

In his message to Congress President Wilson asked that special protective legislation for the new United States dye and chemical industry be passed, partly for military reasons.

## Temperance After the War

Forces of Reaction Against Temperance Already Beginning To Set In

London, England.—The Bishop of London, speaking at the annual meeting of London United Temperance Council held at Memorial Hall, said that the forces of reaction against temperance were already beginning to set in. There were appearing in the newspapers paragraphs stating "No beer, no work." Hours were beginning to come back, and if they let them come back they did not deserve to have won the war. If the old hours were reintroduced they should have the money opportunity. Never, he declared, had the country been awakened to the dangers of drink as during the war which had almost been lost through alcohol. After Lord Aberdeen had spoken recently in the House of Lords on the work of the Central Control Board (Liquor Traffic), and given figures in support of his statement, he (the Bishop of London) said that he hoped he would never hear it said again that people could not be made sober by act of Parliament. He predicted that it would be a serious matter for British trade if they remained as they were and had to compete with a prohibitionist country like America.

## Grasshopper Menace

Poisoned Bait for Grasshoppers Is Now Advised

Ottawa—As outbreaks of grasshoppers or locusts are being reported from different localities in Manitoba and Saskatchewan, the entomological branch of the department of agriculture recommends farmers in the localities should co-operate with the use of poisoned bait in infested areas. This may be made as follows: Mix half a pound Paris green in twenty pounds of bran, moisten mixture with two gallons of water in which two quarts of molasses and the juice of three lemons or oranges have been added, and scatter the mixture thinly. This quantity will treat four to five acres.

## Alghans Seeking Peace

London.—The Indian Office makes the following announcement: "The Viceroy reports that a letter has been received from the Amir at Peshawar expressing a desire for peace, asking for the opening of negotiations, and stating he has instructed the Afghan commanders to cease hostilities."

## Assault League of Nations

Washington.—Assailing the League of Nations as a commission of armed powers in "a gigantic war trust," Senator Johnson, Republican of California, told the senate that the Paris conference dared not amend the league covenant so the destruction of future wars would be decided by a popular vote of the peoples concerned.

Nearly everybody knows that golf was first played by the Scotch. A veteran—devotee of the game once said that Scotland's greatest contribution towards the welfare of mankind was the royal and ancient game.

Saint Andrew's By The Sea, New Brunswick, called after the patron saint of Scotland, is the home of many families of Scotch descent, and it is appropriate that the spot thus named should be possessed of golf courses as fine as any in the world. It is not exactly known when golf was first played at St. Andrews, but the Algonquin Club came into existence in 1890. A club was firmly established here in 1895, and now St. Andrew's has the reputation of being the "Mecca of Golf." Hundreds of golfers from Canada and the United States flock hither annually and enjoy the glorious sport.

Golf is an invigorating game anywhere, but it is most delightful when played along the sea. At St. Andrew's there are two courses, a nine-hole course 2,500 yards long and an eighteen-hole course 6,000 yards long. Both overlook the sea, and are clad in a firm sward of velvet green. While resting on the course you can enjoy the view of the "sea-beneath," dotted with sailing vessels and motor boats, and little row boats that glide serenely over the waves. From the golf links you may watch the fishermen catch millions of sardines, their weirs that are set a few hundred yards, or less, from the shore, and old men and old women may often be seen gathering shell fish on the beach.

It is a delight to listen to the continuous panting of the waves that expire on the red-lipped land—for the coast line is made of rocks and sand of rich deep red; and looking on it one might fancy that here in prehistoric times some great sea monster was killed and dyed the place with his blood. When a game of golf is ended it is pleasant to sit on one of the red rocks and gather bunches of the lovely New Brunswick wild roses from the hedges or rich bouquets of blue lilies in the mallow meadows. In July the fields are white with a wealth of wild strawberries that tempt many to go berry gathering.

The climate of St. Andrew's makes the place an excellent holiday resort. The skies are seldom clouded, and the heat of the sun is tempered by the cool breezes of Passamaquoddy Bay. The most pleasant golf is not all golf; a congenial atmosphere and environment are half the delights of the game, and the various other attractions at St. Andrew's are unique. The club house on the golf grounds is equipped with all modern conveniences; you may play tennis on the admirable grounds at the Algonquin Hotel. You may ride in a motor boat to Deer Island, you may hire a row boat to land in the bay, or visit of Katie's Cove; and a game of bowling on the bowling green is a joyous pastime.

The late Sir William Van Horne, one of the presidents of the Canadian Pacific Railway, built a beautiful residence on an island in Passamaquoddy Bay, and his family still lives there in the summer season. Lord Shaughnessy, the chairman of the C.P.R. board of directors, makes his summer home at Fort Tipperary. St. Andrew's, and takes a special interest in the progress of the place.

At St. Andrew's there is splendid sea fishing, and a lake near at hand furnishes some of the best bass fishing in Canada. And should the weather ever be rainy the Algonquin Hotel, supplies bowling alley, pool tables, English and French billiard tables, and a beautiful large casino for dancing. Those who make St. Andrew's by the Sea their holiday resort will go away so a second time, for which will do so, it there is an allurement about the place that brings you back again.

## Towns in Java Destroyed by Volcano

Amsterdam.—The volcano of Kalut, in Java, has burst into eruption, wiping out twenty villages in the district of Bregat and eleven in the vicinity of Billar, and causing deaths estimated at 15,000, according to a Central News dispatch received here. The volcano Kalut (Kelout) is one of the most famous of the volcanoes of the island of Java. Kalut is in eastern Java south of Surabaja.

**Rioting in India**  
London.—In the House of Commons at question time Saturday, Sir Edwin Montague, secretary of state for India, stated that he understood the totals of deaths and injured in the riots in India were about four hundred each, including eight or nine Europeans. The damage was nearly a million pounds sterling.

**Minard's Liniment used by Physicians**  
Reconstruction  
An exchange, speaking of the much-used word "reconstruction," recalls a story by David O'Connell: "The council of a town in Sligo was to build a new jail. They passed three resolutions which read: 'Resolved that we build a new jail; resolved that we build the new jail out of the materials of the old one; resolved that we keep the prisoners in the old jail till the new one is finished.'"

**A GRAND MEDICINE FOR LITTLE ONES**

Mrs. Avila Noel, Haut Lameque, N.B., writes: "I can highly recommend Baby's Own Tablets as they have worked wonders in the case of my baby. I always keep them in the house and would not feel safe without them." What Mrs. Noel says concerning Baby's Own Tablets is just what thousands of other mothers say and feel. The Tablets are a mild but thorough laxative which regulate the bowels and stomach, thereby banishing constipation, colic, indigestion and a host of other minor ailments of little ones. The Tablets are absolutely guaranteed to be free from opiates or narcotics for any of the other drugs so harmful to the delicate system of the baby. They cannot possibly do harm—they always do good. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The city of Los Angeles leads all United States municipalities for deaths due to automobile accidents, the ratio being 17 to the 100,000 of population. Chicago's automobile death rate is 10 to the 100,000 of population a year. New York's death rate to the 100,000 is 8.1, and Baltimore has the lowest, which is 5.1.

**Minard's Liniment Lumberman's Friend.**

It has been discovered that in the later stages of the war the enemy was reduced to the use of thistle-fibre, which is only approximately half the strength of linen, for his aeroplane coverings.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

**Biggest Saloon Closed**  
Average Daily Bank Deposits Have Been \$5,000

At Bridgeport, Ohio, the biggest saloon in the world went out of business when Ohio became dry under an amendment to the state constitution. This saloon is located in a city of 4,200 inhabitants, just across the Ohio river from Wheeling, W. Va. It was owned and operated by Sam Untermyer. It employed 77 bartenders and clerks and had 216 feet of bar. For the last year or two its average daily bank deposits have been \$5,000, or \$1,825,000 a year. It has made Bridgeport famous in the Ohio river.

Mr. Untermyer is 36 years old and is a millionaire. He says he never smoked or drank intoxicating liquor. He estimates that since 1915 approximately 20,000 drinks a day have been sold over his bar. He also asserts there has never been a fight in his saloon. He attributes this largely to the fact that he would not sell to a drunken man or a minor.

The woman who fails to say "because" has some other excuse.  
A musician who can play all kinds of instruments beats the band.

**Rhine Republic Is Not Unanimous**  
Berlin.—The inhabitants of Mayence and Weisbaden began a 24-hour strike in protest against the attempted coup in proclaiming an independent Palatinate republic. It is also reported that pro-German Palatinates at Mannheim declared a general strike and that the inhabitants of the Palatinate, notwithstanding threats by the French of court-martial, everywhere are tearing down the posters proclaiming the republic.

**SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL**

Let folks step on your feet hereafter: wear shoes a size smaller if you like; for corns will never again develop on your feet. This is the only way, according to this Cincinnati authority.  
He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness. But they must attest that this drug will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

**Had a Habit**  
Starter: Bring up that horse; bring him up.  
Rider: I can't. This here's a cab horse, an' he won't start till he hears the door shut, an' I ain't got no door.

**The Pill That Leads Them All.**  
Pills are the most portable and compact of all medicines, and when easy to take are the most acceptable of preparations. But they must attest their power to be popular. As Parmedee's Vegetable Pills are the most popular of all pills they must meet all requirements. Accurately compounded and composed of ingredients proven to be effective in regulating the digestive organs, there is no surer medicine to be had anywhere.

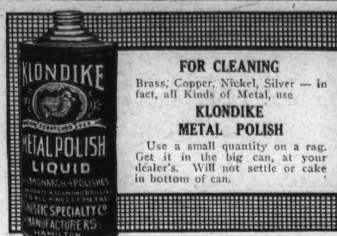

**Reds Pillaged Riga**  
In the Various Prisons, Sixteen Hundred Hostages Were Found

Paris.—The Bolsheviks, before they retired from Riga, shot thirty persons in the central prison there, according to official reports received by the American peace delegates. The anti-Bolshevik troops captured Riga with slight fighting, surprising the Bolsheviks, who fled hastily.

All the stores and homes of the well-to-do were pillaged by the Bolsheviks and most of the bourgeoisie were compelled to leave the city before it fell. The material damage to the city was slight. In the various prisons, sixteen hundred hostages were found. The reports describe them as being in a state of unspeakable misery and starvation when they were released.

**COLDS, CATARRH RELIEVED IN FIVE MINUTES**

Consumption can be traced back in most instances to a bad cold or catarrh that was neglected. Don't court this "white plague." Secure yourself at once against it by inhaling Catarrhazone, a pleasant antiseptic medication that is inhaled into the lungs, nasal passages, throat, and bronchial tubes, where it kills disease germs and prevents their development. Catarrhazone relieves inflamed surfaces, relieves congestion, clears the head and throat, aids expectoration, and absolutely cures Catarrh and bronchitis. Quick relief, cure guaranteed, pleasant to use. Get the \$1.00 outfit of Catarrhazone; it lasts two months' small size, 50c. All dealers, or the Catarrhazone Co., Kingston, Ont., Canada.

**KLONDEE METAL POLISH LIQUID**  
FOR CLEANING  
Brass, Copper, Nickel, Silver — in fact, all kinds of Metal, use **KLONDEE METAL POLISH**  
Use a small quantity on a rag. Get it in the big can, at your dealer's. Will not settle or cake in bottom of can.

**Dominion To Get Aircraft**  
They May Be Utilized for Postal Service Here

London.—In the House of Commons Saturday, Col. W. W. Ashley, member for Fylde, asked: Will the ministry offer the dominions and colonies some of its surplus airplanes for postal and similar services?  
Major-General Seeley replied that the question had been considered and a satisfactory conclusion reached by the government. He would make an announcement later.

Col. Ashley: "Will it be by gift or purchase?"  
Major-General Seeley replied: "As a free gift to the dominions, crown colonies and India." (Cheers.)

**Held Empire Day Service**  
London, England.—Empire Day was celebrated by a memorial service for the overseas forces, at Westminster Abbey, at which the King and Queen with other members of the royal family and representatives of the allied nations, British colonies and army and navy were present. The keenly anticipated American march was unavoidably postponed, public military ceremonies being conspicuous by their absence. Buildings were decorated with flags and the occasion was celebrated in a fitting fashion in the schools.

At the Varnhough Y.M.C.A. Boys' Camp, held at Silver Falls in August, I found **MINARD'S LINIMENT** most beneficial for sun burn, an immediate relief for colic and toothache.  
**ALFRED STOKES,**  
General Sec'y.

**Swedish Government Asks For Plebiscite**

To Determine Nationality of Aland Islands  
Paris, France.—The Swedish Government has sent the peace conference a note asking that a plebiscite be taken as soon as possible to determine the nationality of the Aland Islands, lying between Sweden and Finland, at the entrance to the Gulf of Bothnia. The note reads:  
"The Royal Government feels that it must insist upon the conference taking into consideration as soon as possible the question of the rights of the population of the Aland Islands to decide by a plebiscite, carried out with the necessary guarantees, whether the archipelago is to belong to Sweden or to Finland."  
"The Royal Government presumes that on account of the principles expressed at the peace conference, Sweden will be allowed to take part in the discussion of this question. It is needless to add that the Royal Government greatly wishes that if the plebiscite gives the islands to Sweden, measures shall be taken to prevent the construction of military buildings in the archipelago, and also to prevent attacks on the archipelago by another power."

If some men's reputations were visible they would look very much like porous plasters.

**How to Cure Biliousness**

Doctors warn against remedies containing powerful drugs and alcohol. "The Extract of Roots, long known as Mother Seigel's Curative Syrup, has no dope or strong ingredients; it cures indigestion, biliousness and constipation. Can be had at any drug store. Get the genuine. 50c. and \$1.00 Bottles."

**BEECHAM'S PILLS**

have a well deserved reputation as a safe and effective remedy for stomach ailments. They are

## Health Inspection in Schools

School Boards Should Get Busy

Fee charged is very small and work will  
have far reaching effect on the health  
of the coming generation.

It is of prime importance that School  
Trustees should avail themselves of the  
services of the Public Health Nurses, who  
have just been stationed in different centres  
in the Province to conduct child welfare  
stations and to inspect the children  
attending school. Although for years it  
has been optional with the Trustees in  
rural school districts to have medical inspection  
of the children attending school, but a small percentage of the schools have  
ever been so inspected. To render this  
service more general and at the same time  
to reduce the expense to School Districts,  
Registered Nurses, by means of a special  
course of instruction given at the Provincial  
University, are being qualified to do this  
work. In the various cities, towns and  
villages throughout Canada, where there is  
inspection of schools by doctors and nurses,  
about forty per cent. of the children are found  
to have ailments that are prejudicial to health.  
Although the Legislature did not make such  
inspection compulsory in rural schools, it is  
inconceivable that any board within striking  
distance of where a Nurse-Inspector is located  
will do anything except send a request at once  
that the school be inspected. The Department  
of Health is bearing about one half of the whole  
expense.

It trains the nurses, pays their salaries,  
and living expenses, and the school district  
is asked to pay only a minimum of \$20.00,  
with a minimum of \$10.00 for such inspection  
of all children attending any rural school. There  
is the heavy demand from various parts of the  
Province for such inspection. There are only twelve  
such specially trained nurses in the Province.  
Ten will be placed at particular centres and  
two will probably be given each a roving commission.

The necessity of such inspection may be  
illustrated by the average result of such inspection  
in 1910 of the schools of ten leading cities in the  
United States, where on an average of 1000 children  
inspected it was found that there were defects and  
ailments actually injurious to health at the  
time of inspection in the following number of  
children, as to teeth 415, throat 301,  
eyes 163, nose 108, glands 118, ears 30.

Professor Osler, recently addressed the  
Academy of Medicine in London, England,  
said "If I were asked to say whether more  
physical deterioration was produced by alcohol  
or by defective teeth, I should say by defective teeth."

If school trustees are in any doubt as  
to the beneficial results of the inspection of  
their school by a nurse-inspector, they are  
advised to write the Secretary-Treasurer  
of any school thus far inspected. There were  
only four such nurses heretofore qualified.  
They inspected a number of schools last year  
and these, among others, Cuthbert Consolidated,  
Crystal Lake, Beaver, Pioneer, etc., near Lethbridge;  
Scottfield Consolidated, Rainbow, Keystone,  
and others near Youngstown; Killam, Poplar  
Park, Asquith, etc., at or near Killam; Vermilion,  
Centre, New Mannville, Bowling Green, etc.,  
at or near Vermilion.

Several towns and villages are now co-  
operating with the trustees of the surrounding  
districts so that a nurse may be stationed to  
conduct child welfare work and to inspect the  
schools and give health talks in every district.  
The Minister of Health has found that while  
the fee of \$10.00 to \$20.00 according to attendance  
is considered very reasonable as to rural school  
districts, the straight maximum charge of \$20.00  
per room in the towns and villages is considered  
excessive, and the Minister agrees that it is  
excessive. He has therefore written all parties  
interested and stated that for their effort in  
co-ordinating the work that to any town or  
village that secures co-operation of at least ten  
rural school districts, that is inspection and  
turning transportation for the nurse, he will  
allow such town or village a deduction and the  
amount such town or village will be required to  
pay will be \$20.00 for the first room (and only  
\$10.00 for each other room). Thus in a five-  
room village or town school the payment will be  
\$90.00 (not \$100.00). The Minister holds that  
he can observe the Statute by giving the Trustees  
a receipt for the remaining \$10.00 for services  
rendered by the Department and still be in all  
cases, no matter what is the number of rooms.  
It should be clearly understood, however, that  
no nurse will be placed at any centre to do child  
welfare work, except in connection with school  
inspection. The night graduating nurses were  
expected to commence work last Monday.  
The average parent in the Province is

HEAD OFFICE:

811a--1st STREET EAST,  
CALGARY.

Branch Office: CROSSFIELD.

G. W. CHURCH, Local Manager.

alive to the necessity of thorough inspection of all school children, let one of his children may be de-mate to a child afflicted with a communicable or other disease. In some school districts it has been found that there are forty ratenaps and only a few children attending school, therefore the minimum fee of \$10.00 applies and therefore the cost to each ratenaps is but 25 cents. It seems quite clear that as to any trustee who does not hear himself and immediately arrange to have his school inspected, his services as a trustee will not long be required in any district. Requests have come from several districts to recall trustees who are not active in taking steps to secure school inspection.

The Public School Inspectors are very enthusiastic over this work and are willing to give all the assistance they possibly can to assist in the necessary organization or in any other way.
